AQUAVIT

Aquavit's roots in Scandinavia go back centuries, at least to the 1500s, when it was praised for its alleged medicinal properties. Like vodka, aquavit is most commonly distilled from grain, yet some are distilled from potato & flavored with a variety of herbs, spices & even fruit oil.

Though recipes and flavors vary widely between brands, the most prominent flavors are typically caraway, anise, fennel, dill, cardamom, cumin & lemon or orange peel.

A shot of aquavit, vodka or bitter liqueur can be taken with friends to celebrate any occasion, and eye contact is mandatory!

Skål!
